Business Introduction

Our products are mainly based on cleaning, health, disinfection and sterilization, covering household, commercial, lab, medical, industrial, and other fields, supporting OEM and ODM, providing one-stop procurement services.

Production Layout

Our production line expertise spans household, commercial, medical, and industrial sectors. With a 2 million unit annual capacity, we're equipped to fulfill diverse customer needs effectively.

Quality Assurance

The product development stage has passed 10 professional tests to ensure the stability of product design. The finished production line go through three major links: incoming IQC, inspection IPQC, and finished product OQC to ensure quality requirements.

Factory Scale

The factory's self-built industrial park - Shaoguan Industrial Park covers an area of 35000 square meters. It is a key investment project of the local government and relies on local resources to build a century-old international enterprise.
